The Events Calendar

Full Design Integration

Avada has **added design integration** for the most popular event plugin on the planet, The Events Calendar by Modern Tribe. The Events Calendar is an amazing plugin that allows you to easily create and manage events directly on your site. Now, your events will look even better with our custom design integration and easy to use styling options.

When you install Avada, you can also install the **FREE** version of The Events Calendar. In addition, Modern Tribe has a **PRO** version that offers additional features views, widgets and more! Avada includes integration for both the FREE and PRO versions.

Please note, we receive a small commission of the sale if you decide to buy the PRO version from the links on this page. The items on this demo that showcase the PRO version are the Week, Map and Photo views. Everything else can be done with the included FREE version.
